MAJOR SCHOOL PROJECTS

DELTA STATIONERY WEBAPP

Sep 2018 - Dic 2018 | Mexico City

A webapp designed to optimize business processes of "Delta" stationery shop.

- Designed and implemented all the back-end infrastructure and logic using Java and Tomcat.
- Designed and created the relational database using MySQL.
- Designed and created frontend templates and visuals using HTML and CSS.
- Worked hand in hand with a real client.
- Stationery's owner satisfied with final product.

GATIVA AUTOMAILER WEBAPP

Ene 2019 - May 2019 | Mexico City

A webapp designed to optimize the sending of sales reports of more than 100 restaurants (such as Chiltepinos Queretaro, Milanesas del Pirata Sonora, etc.).

- Designed and implemented the back-end infrastructure to modify data using PHP and Javascript.
- Designed and created the relational database using MySQL.
- Created frontend templates and visuals using HTML and CSS.
- Used Scrum model for weekly meetings.
- Worked hand in hand with WoolfoSystems's company manager.

RESEARCH

COFECE ESSAY CONTEST | RESEARCHER, WRITER

Apr 2019 - Jan 2019 | Mexico City

Pipelines in Mexico: a key factor for the trade opening of the fuel market.

- Researched and wrote an essay about economic competition.
- Participated in a national economic essay contest.

AWARDS
